ROSENDAHL GRAND THERMOS JUG

ROSENDAHL

Rosendahl is Danish design that can withstand daily use. That's the case with all Rosendahl designs. And if there is one range that truly frames that mantra throughout the collection, it is the classic Grand Cru range..

The simple and functional design with the four iconic grooves puts the focus on food, is a simple service to collect for the kitchen and to keep for life, and is easy to combine with other products. Even though this understated series tries not to steal the show, it's hard not to notice it with its distinctive grooves that are repeated on all of the series' products.

With this thermos jug in black plastic you get a decorative test winner which also retains heat exceptionally well. The push-button lid lets only a small amount of heat out during serving, while the double-walled glass liner increases insulation.

ROSENDAHL GRAND CRU CHAMPAGNE BUCKET

ROSENDAHL

2023 marked 30 years since Rosendahl revolutionized the Danish design world with the Grand Cru series.

Since then, it has evolved into a wide range of stylish and functional classics. Timeless designs with heritage and attitude. Design that lasts.

Cocktails and long drinks are more popular now than ever before – and the Grand Cru bar range guarantees you the very best utensils. The stylish stainless-steel champagne bucket is a totally indispensable element - serving champagne or chilled white wine from it is a pure joy. The champagne bucket features leather handles.

ROSENDAHL GRAND CRU WATER CARAFE

ROSENDAHL

Rosendahl is Danish design that can withstand daily use. That's the case with all Rosendahl designs. And if there is one range that truly frames that mantra throughout the collection, it is the classic Grand Cru range.

One of Rosendahl's great classics, the Grand Cru series has become part of many homes over the years, and people use it every day – in other words, it is extremely popular.

This carafe has become popular all over the world because of its simple design and steel collar. Serve ice-cold, refreshing water and add mint, slices of lemon or frozen berries to give the water a twist.

The Grand Cru range provides practical kitchen basics that will last a lifetime and is easy to combine with other tableware and cutlery.

ROSENDAHL SOFT SPOT SOLAR CIRCULAR LIGHTS ROSENDAHL

With the Soft Spot series from Rosendahl, you get lamps that are in a category of their own.

The lantern has a built-in solar panel, which means that the sun's rays supply the rechargeable battery with solar power, letting you use the lamp with consideration for the environment. The lanterns' design is based on circular shapes, just as the use of recycled materials celebrates circularity. Thanks to the lantern's light weight and practical design, you're free to take the light with you wherever you go – at home, around the table and in the garden. It can withstand rain and wind down to minus 20 degrees.

The lamp can burn continuously for 15–18 hours. You can also adjust the brightness depending on the mood you're after. It has a built in Light sensor that automatically turn on light when it gets dark.

The Rosendahl Soft Spot Solar Circular is also easily charged with a USB-C cable (cable and charger not included). Fully charged, it can light for 15–18 hours. Frame and lamp shades contain 100% GRS certified recycled polycarbonate.

ROSENDAHL GRAND CRU GRINDERS

ROSENDAHL

A quality spice grinder is indispensable in the kitchen. This grinder in Rosendahl's classic Grand Cru design combines both form and function.

The unique ceramic grinding mechanism is from CrushGrind®, which is known for its high quality and a smart, functional extra feature – namely that the degree of grinding can be easily adjusted so that you get the spices just the way you want them. And with a full 25-year warranty on the ceramic parts in the grinder, as always at Rosendahl, it's really about design that lasts.

The Grand Cru Nouveau grinder has geometric elegance in style, structure and colour, the smoked glass and black top create a unique look that accentuates the Grand Cru design. And as with its predecessor, the classic Grand Cru grinder, the grinder itself is placed at the top of the Grand Cru Nouveau grinder.

KAY BOJESEN NEW WOODEN FIGURES

KAY
BOJESEN
DENMARK

With its modern and minimalist look, it's hard to believe that Bojesen's Dog 'Pind' turns 90 years in 2024.

Made by Kay Bojesen in 1934, it's further proof that Bojesen successfully created iconic designs that we never tire of looking at. In fact, the dog was one of the very first animals that Kay Bojesen created, and the round shapes, soft edges and smiling lines that became his signature are already evident in the Pind design.

ARNE JACOBSEN CLOCKS | TABLE CLOCKS

ARNE JACOBSEN
CLOCKS

The table clock with integrated alarm clock was created by Arne Jacobsen Clocks in 1939 and is an early example of Arne Jacobsen Clocks's unique talent for creating industrial, minimalist product design.

The table clock was designed when Arne Jacobsen Clocks was designing the private home of the director of Lauritz Knudsen.

The original table clock has now been put back into production with new graphics and updated features, such as a snooze function and light sensor.

The table clocks are thus functional clocks, modern alarm clocks, stylish interior design items and part of Danish design history.

KÄHLER GINGERBREAD LIGHT HOUSES

Create the perfect Christmas atmosphere with Kähler's handmade gingerbread houses

They look good enough to eat.

Beautifully decorated gingerbread houses with white glaze, paned windows and snow on the roof.

The gingerbread house is a real Christmas cake classic that exists in different versions in many countries. And if you've tried your hand at the cake art of creating one yourself, you know that it's not entirely easy. But with the gingerbread house from Kähler Gingerbread, you are sure of success and, on top of that, you get extra Christmas atmosphere in the home when the light flows out of the gingerbread house's hand-cut windows.

HOLMEGAARD DESIGN WITH LIGHT

HOLME
GAARD
EST. 1825

'Design with Light' is a series of lanterns in mouth-blown glass with an organic design language and elegant design details. They create a cosy atmosphere both indoors and outdoors when the candlelight is reflected in the lantern's soft curves.

The mobile lantern is handmade by Holmegaard's experienced glassmakers, and Maria Berntsen's glass design and full-grain leather handle make it perfect for the terrace, living room or beach – wherever you need a warm glow in the dark and a cosy atmosphere.

With glass and full grain leather, the series has a clean, Scandinavian look and functions as a mobile light source that, all year round, casts a very special light on your surroundings, regardless of where you place it.
