BEACHBOOM MINI

Built for Sand, Sun, and Sound.

Tougher than the Beachboom and more compact, this little beast packs extra rubber bumpers for those moments when the bass drops and the speaker takes a dive for the deck. Smaller size, same iconic Boompods sound with passive bass that only gets better the louder you go.

Incredibly small, pocket-sized wireless speaker, **now made from recycled ocean plastic and available in ocean-inspired colours**. The enhanced 3W speaker seriously packs a punch! It still features BoomPods' signature simple multi-function button, allowing you to take calls, operate your phone's camera for selfies, and pause your music on the go. Immerse yourself in true stereo sound by pairing two together. And of course, it's IPX6 water-resistant and drop-tested. Small enough to go on any adventure, it reduces your environmental footprint while making a positive impact.

Boompods is the only consumer electronic company making products from 100% ocean bound plastic.

OCEAN MATERIAL

Products made with a future.

Planet Boompods

The purchase of a Boompods product helps plant one tree.

We are very proud to announce that Boompods has partnered with One Tree Planted, to plant trees around the world. One Tree Planted is a non-profit organisation dedicated to global reforestation. Their mission is to reforest the planet, one tree at a time.

Trees clean our air and water, create habitats for biodiversity, contribute to our health and wellbeing, and create jobs for social impact. We're honoured to have reforestation through One Tree Planted as an integral part of our business model.

Designing the future.

Our packaging is now 100% plastic free and from responsible sources. We tackled this as a design problem and have come up with stronger and even more attractive packaging that is easily recycled and helping a greener future.
